How to RAISE YOUR HAND in Zoom

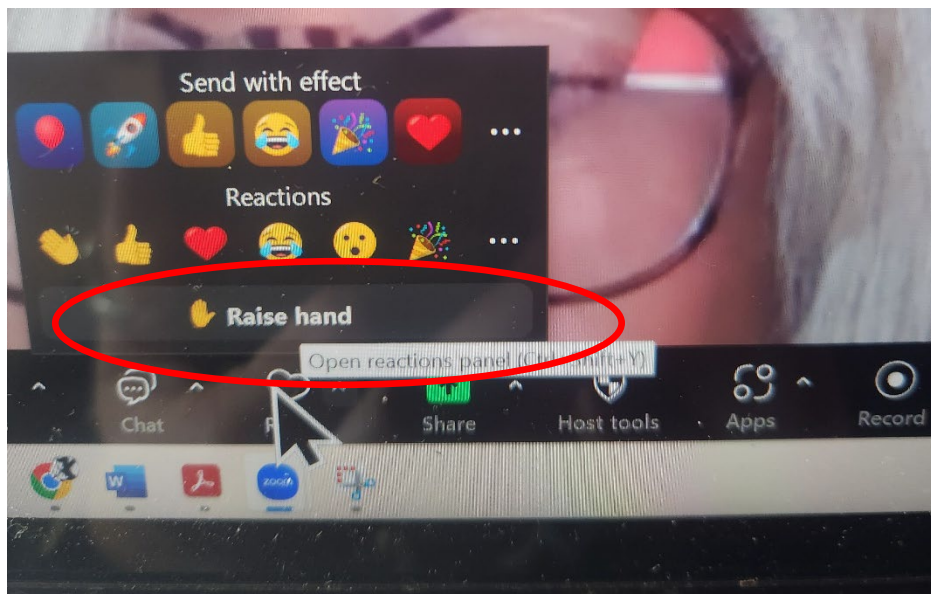

Be sure that your ZOOM camera is ON.

Click the bottom of the screen to raise the black CONTROL BAR.

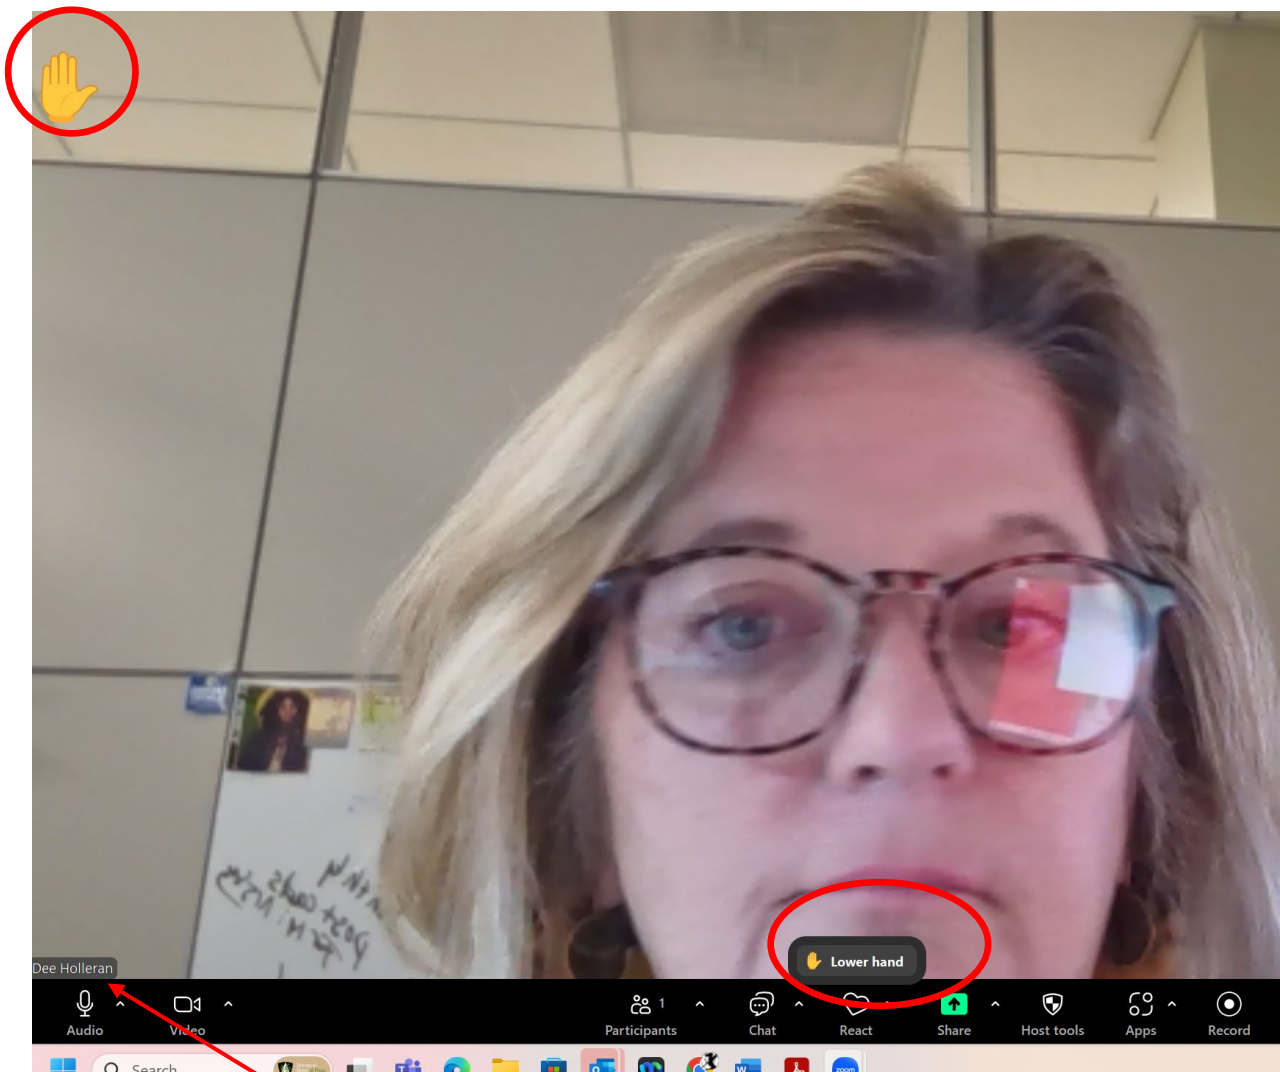

Look for the red heart in the control bar.

When you click the red heart, you will see a button for RAISE HAND at the bottom of the pop up. Click there to raise your hand.

You will see your raised hand on your own screen, and a LOWER HAND button in the control bar.

Be sure to turn on your mic to ask your question. Lower your hand and turn your mic off after your question.
